All input cells (in white) must be completed with the exception of the "Comments" text box at the end of this form which may be left blank.

Where no data are available, i.e. the administration does not gather or has no access to the requested data, "D" (No Data) should be entered into the input cell. Where, for whatever reason, the administration chooses not to provide the requested data, "P" (Not Provided) should be entered into the input cell.

Format of input data - Do not insert minus signs or use parentheses around negative or subtracted numeric input. The form automatically adds or subtracts the input provided. Please note that where percentage input is required, only two decimal places will be accepted, and the input should be as demonstrated in the following examples - if 0.25 is entered, 0.25% will be recorded; if 25.32 is entered, 25.32% will be recorded; if no decimal point is input, then none will be reflected, e.g. if 25 is entered, 25% will be recorded.

All "Yes/No" radio buttons must contain either a "Yes", or a "No" selection.

Please note that data previously entered in a cell enabled by a checkbox will be lost when the enabling checkbox is unchecked.

All local currency unit input, unless specifically requested not to, should be rounded to the nearest thousand, indicated in questions by "in thousands" or ('000). In other words, where the actual data are 10,645,982,452 (ten billion, six hundred and forty-five million, nine hundred and eighty-two thousand, four hundred and fifty-two local currency units), it should be input as 10645982 (No decimal points, commas or the last three digits).

Where no data are available, i.e. the administration does not gather or has no access to the requested data, "D" (No Data) should be entered into the input cell. Where, for whatever reason, the administration chooses not to provide the requested data, "P" (Not Provided) should be entered into the input cell.

Format of input data - Do not insert minus signs or use parentheses around negative or subtracted numeric input. The form automatically adds or subtracts the input provided. Please note that where percentage input is required, only two decimal places will be accepted, and the input should be as demonstrated in the following examples - if 0.25 is entered, 0.25% will be recorded; if 25.32 is entered, 25.32% will be recorded; if no decimal point is input, then none will be reflected, e.g. if 25 is entered, 25% will be recorded.

All "Yes/No" radio buttons must contain either a "Yes", or a "No" selection.

Please note that data previously entered in a cell enabled by a checkbox will be lost when the enabling checkbox is unchecked.

All local currency unit input, unless specifically requested not to, should be rounded to the nearest thousand, indicated in questions by "in thousands" or ('000). Intervention Activity

3 Provide details on the **total number and value of completed taxpayer verification / audit actions undertaken** by intervention type

Verification comprises a variety of interventions typically undertaken by revenue administrations to check whether taxpayers have properly reported their tax liabilities. The primary verification intervention undertaken by revenue administrations is usually described by the term **tax audit** or **tax control**. However, across revenue administrations **audit** interventions vary in their scope and intensity. For the purposes of this question, the following broad definitions apply - **Comprehensive Audit** means an intervention that is usually indepth, covers multiple taxes, numerous issues and tax years, and is mostly carried out at the premises of the taxpayer. **Issue-oriented Audit** means an intervention usually focused on specific issues, taxes, or tax years, and normally carried out at the premises of the taxpayer. **Desk Audit** means an intervention usually resulting from an in-office review of information returned by the taxpayer and normally takes the form of further written or telephonic enquiries. **Other Verification Interventions** means any additional measures taken by the authorities usually encompassing high volume automated checks such as income/document cross-matching.
